Brian, Mindy, Russ –

Attached are the compiled notes for the National Wetlands Meeting. Beyond compiling the notes from the various notetakers and inserting the discussion questions taken from the PPT I have not attempted to format them as I think it would be a lot of time and effort without a real need, since these are informal and only for internal use. Russ and I discussed the distribution but didn't quite come to resolution as our meeting was cut short.

For distribution I propose that after you review it we should share it with the session leads for their review. After that, on the next Monthly Wetland Program call we can mention that the notes are available for anyone that wants them. We could also put them on the meeting sharepoint site.

Thoughts on the distribution plan? How long would you like to take to review the notes?

Thanks,

*Rachel*
